GO BOLD ON A BUDGET WITH REMOVABLE WALLPAPER, CHIC SEATING, AND STATEMENT LIGHTING. BY DANIELLE BLUNDELL

1

SEE A PATTERN

Bold printed wallpaper is back in a big way. Get in on the trend with peel-and-stick versions, like Hygge & West's Nana Tiles in Pink (\$58 for two 24-by-32-inch tiles, hyggeandwest.com).

2

BRIGHT IDEA

Swap a generic overhead light for a fixture that really shines, like this Light Society Sputnik 18-Light Chandelier. Score this model or similar (with bulbs!) on Amazon for under \$100, and install a dimmer switch for instant dinner party vibes.

3

DIY DETAIL

Using stock trim, a nail gun, caulk, and paint, you can add wainscoting (and charm) on the cheap. Find a Web tutorial and tailor the steps to your room's specs.

4

PLANT SOMETHING

Science shows that looking at greenery can improve your mood, so find a potted plant that thrives indoors, slip it into a decorative basket, and smile!

5

THE HAUTE SEAT

Bored with a plain-Jane table? Dress it up with new seating. This leggy model, the Alchemy Eagle Brown Dining Chair from Article (\$299 each, article.com), mixes low-key leather upholstery with a glam golden frame. If funds are tight, buy a pair of statement chairs (Article has tons of colors and styles) and four or six less spendy options.
